## Retrofit LED message boards that clip into changeable copy tracks

Numeritex Displays' lightweight wireless Econo-Trac message boards and Gas-Trac fuel products are just 1.5-in. thick and mount easily to existing changeable copy Z-rail tracks. These retrofit signs are ideal upgrades for schools, churches, gas stations and any business with changeable copy plastic numbers/letters. The user programs them wirelessly via a 66-key keypad or an 8-key keyfob.

# Take Your Signs to Another Dimension with ShopBot CNC

Neathawk Designs is a sign-making studio in The Berkshires of Massachusetts. Since 2011, they've been using their **full-size ShopBot PRSstandard** to make signs and work on special projects. For one of their more recent endeavors, they created a full-sized reproduction (1.5' deep x 12.5' wide x 6.5' tall) of a spoils panel from the *Arch of Titus* for an exhibit at the Yeshiva University Museum.

Cutout | Routed | Carved | Sandblasted

## Learn on video: Creating 3D signs

On *Sandblasted, Carved & Routed Signs Made Easy*, Dayna Reed spells out making cutout, routed, carved and sandblasted signs, step-by-step. #393 | \$49.95

On *More Super Cool 3D Signs*, he makes signs from metal, HDU, PVC, acrylics and cedar—using a variety of techniques including gold leaf, smalts, hand carving, and CNC routing. #399 | \$49.95

**Limited time offer: Get both for \$80!**

## SAi rolls out updated SIGN.com

SA International (SAi) recently relaunched SIGN.com, which lets the sign buying public create their own custom signs or banners, which are routed to local sign shops registered to the SIGN.com network. Available free to Flexi subscribers, the service provides an additional avenue for sign shops to help secure new and repeat business, extend their customer base and boost revenue.
