## Faux panels from Texture Plus

Texture Plus panels deliver the look of traditional building materials at a much lower cost. Sign makers can add the look of stone, brick, slate, diamond plate, wood, bamboo and tile to signs and sign structures—indoors or out. The 2-by-4-ft. interlocking panels are lightweight, easy to ship, made in the USA and have a 25-year warranty. There are 850 designs to choose from, too.

## Banner Ups introduces Clear PowerTape

Banner Ups PowerTape, a high tensile strength, single-sided adhesive banner hem tape, is now available as an improved clear tape. Clear PowerTape allows banner graphics to show through, especially on double-sided banners, and is designed to provide higher wind resistance than traditional sewn, welded or taped banners, in minutes without special equipment. Available 1.5-in. wide, Clear PowerTape does not require folding of banner hem.
