One stroke lettering enamels from Alpha 6

Alphanamel Lettering Enamel is designed to be a durable, opaque, single stroke enamel for pinstripers and sign painters. Single stroke coverage allows for faster drying times, a higher gloss finish and elimination of brush marks. Alphanamel paints come in both

traditional metal cans and Alpha 6 signature square squirt bottles in four sizes from ¼ pint to quart, with rattlers inside to minimize waste.

This Avery PVC-free film works for most all applications

The new MPI 1405 Easy Apply RS™ film from Avery Dennison Graphics Solutions is a PVC-free wrapping film designed to cover a vast range of different applications from vehicle wraps to challenging textured building surfaces, including brick and concrete blocks. Designed for print performance and stretchability, this PVC-free material prints on latex, UV and solvent/eco-solvent printers. It uses Avery's Easy Apply RS adhesive technology to ensure simple air-egress, repositionability and slideability for faster installation.
